

GM Global Propulsion Systems

May 19, 2020

The rocker arm part number used in the dexos oil GMOD test has changed to reflect the availability of the component. The rocker arm part number to be used for future tests is 12681275. The use of original rocker arm part number 10214664 is acceptable until stock is depleted.

The part number of the rocker arm used in the test shall be documented in the test report.
