

Global Propulsion Systems

DATE: October 5, 2016
TO: GMOD Laboratories
FROM: Andrew Buczynsky
SUBJECT: GMOD LTMS Changes

Four changes have been made to the GMOD LTMS document:

- Section B.1 has been modified to clarify the reference period.
- Section 6 has been modified to have control charts for phosphorus retention affect stand status.
- The moving range calculation in section 6(b) has been changed to a new parameter, H_i .
- Section 7(c), runs test, has been deleted.

These changes are in effective for any tests completing after October 5, 2016.

The revised GMOD LTMS document is posted at <https://dexostrc.org/reference/>.

If you have any questions, contact me or Rich Grundza of TMC.

A handwritten signature in cursive script that reads 'Andrew Buczynsky'.
